### **Local exercise facility launches new website**

FRACKVILLE — Just Aerobics and Fitness Center of Frackville announced the launch of its newly-designed website, [www.justaerobics.com](http://www.justaerobics.com)

The new design, created by Cross-Roads Multi-Media, places special attention upon what current members need and focuses on services, equipment and classes offered at Just Aerobics.

One of the most advantageous features of the new website is the downloadable class schedule. The schedule is updated monthly and can be accessed by any visitor to the site. The gym is hoping to add more features to the website in the near future.
